Activities, workshops, trainings

LUT Library conducts training concerning bibliographic research, the use of the computer catalogue and electronic sources of information.

Classes in LUT's schedule:

- Library induction- for 1st-year students (1st degree)
- Information literacy-for 1st-year students (II degree)

Additional trainings:

- Students and doctoral students-classes for the seminar and doctoral groups which concern developing research skills and library offers for the specific subject or faculty,
- Academic and didactic staff – classes concerning the choice of information sources and skills development in their use, management of bibliography,
- Library staff- internal training,
- Foreign students- library workshops.

Exhibitions

The gallery of LUT Library, located at the Centre of Advanced Technologies (level 3), presents the wide range of subjects.

The main idea of the exhibitions is to display the important events connected with the university's history, technology and Lublin industry as well as the numerous passions and interests of LUT's academics and staff.

Events

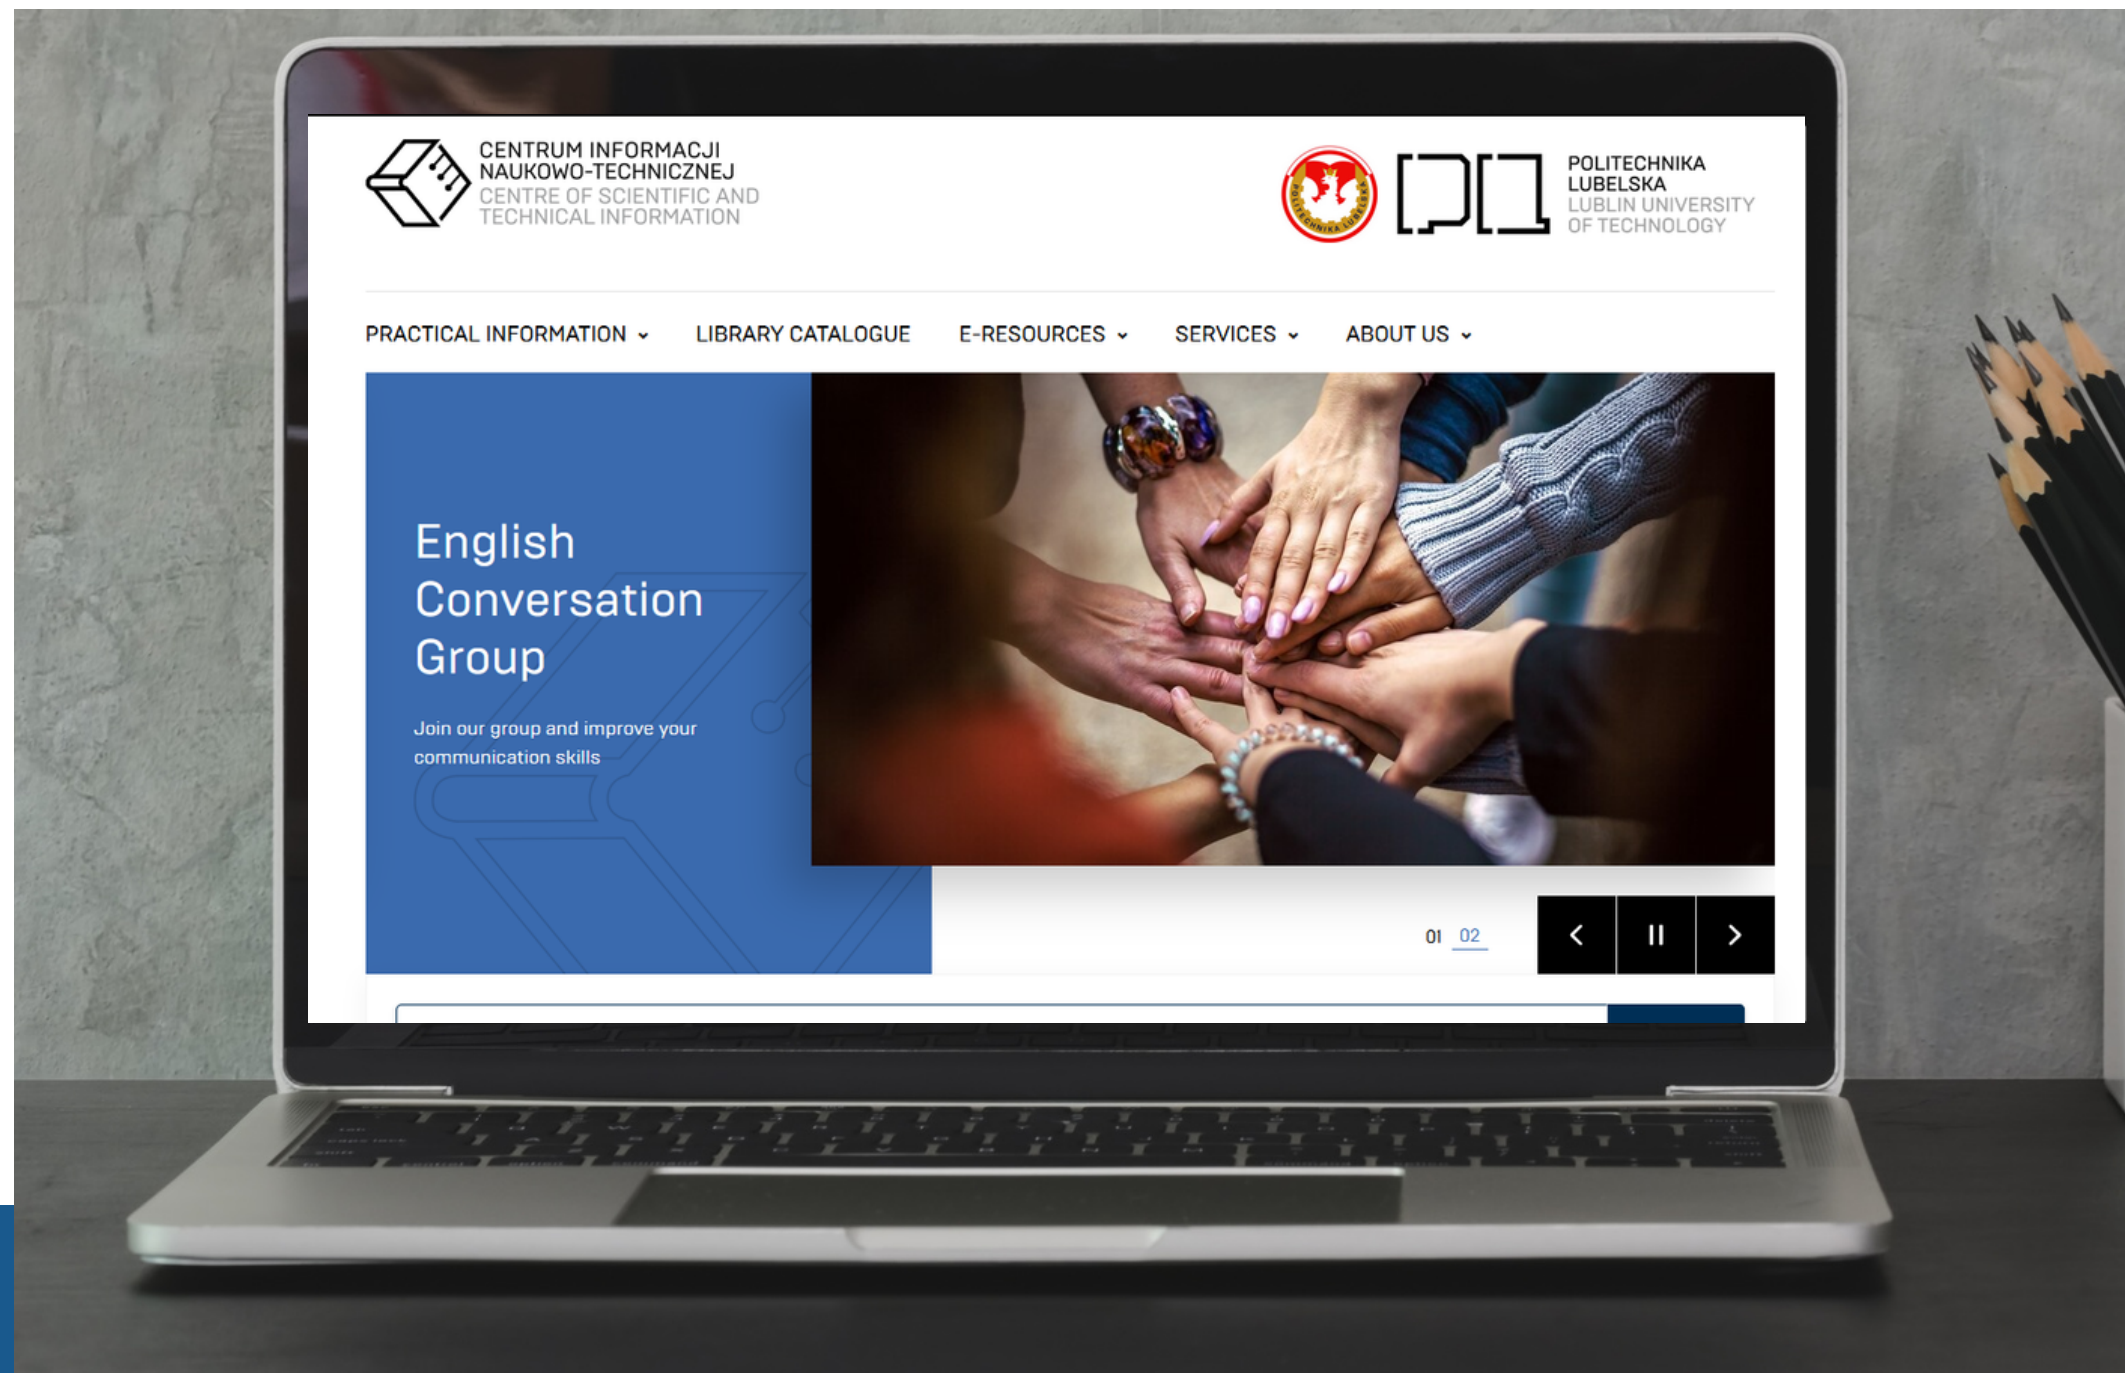

CSTI takes part in the numerous events organized in the region, such as Lublin Festival of Science, Book Fair, Job Fair and other events organized in Lublin and Lublin region.

English Conversation Group

English Conversation Group was made to gather English language enthusiasts. The group was created in October 2020 and since then, we meet every week to discuss and improve our communication skills in English.
